## Pinewood Derby Communication regarding Wheels

There is a newer design for the official BSA wheels. **Both the older design and the newer design are official BSA wheels and can be used in building and racing your pinewood derby car.** This communication is to describe how to differentiate the newer style from older style wheels. You can purchase the Official Pinewood Derby Racing Car Kit (part# 17006) or the Official Wheel/Axle Kits (part# 17007, 17553 – 17557) from your local Scout shop.

### Newer style Official BSA Wheel

The raised lettering on the wheel will have a **Registered** symbol after the words PINewood DERBY on the front of the wheel. The front and back of the Pinewood Derby Kit will have **CUB SCOUT** printed in the top left corner. The back of the kit will have **2009** printed on it.

### Older style Official BSA Wheel

The raised lettering on the wheel will have a **Trade Mark** symbol after the words PINewood DERBY on the front of the wheel. The front and back of the Pinewood Derby Kit will have **SCOUT** printed in the top left corner. The back of the kit will have **1996** printed on it.
